

## Chain Link fence

**Chain link fence** (also known as chain link fencing) is one of the most common styles of fencing for sport ground and stadium. It comes in a variety of sizes and strengths.

**Material:** Low carbon steel wire, stainless steel wire, aluminum alloy wire, etc.

**Weaving:** Woven diamond pattern provides strong, durable and flexible construction. The closely spaced diamond mesh construction gives your fence linear strength and springy texture to protect horses from injury and prevent predators from entering paddocks and pastures.

Chain Link fence is used as fencing for sports field, river banks, construction and residence.

Here are the things to consider when selecting chain link your fence system:

- Primary Use - If the system is mainly used to accent your landscaping or define property boundaries, you may be able to use a lighter mesh.

- Visual Aesthetics - If you desire a fence system that blends into the environment, then you should consider a color coated system.
- Potential Stress – If it is potential for climbing, or leaning (dogs) on the fence, you may want to consider a heavier mesh than normal.
- Longevity - If the system is to remain for many years, be sure to consider the finished coating of the mesh. The color coated meshes have a long life expectancy.

Fence Height cm	Fence Length(2m)					Fence Length(2.5m)				
	Wire Gauge	Wire Diameter mm	Opening cm	Weight kg/piece	Fixing Pole	Wire Gauge	3.2 4	Opening cm	Weight kg/piece	Fixing Pole
					Weight kg/set					Weight kg/set
60	10#/8#	3.2 4	5X12	6.5	1.9	10#/8#	3.2 4	5X12	8.6	1.9
80	10#/8#	3.2 4	5X12	7.5	2.3	10#/8#	3.2 4	5X12	9.9	2.3
100	10#/8#	3.2 4	5X12	8.5	2.7	10#/8#	3.2 4	5X12	11.2	2.7
120	10#/8#	3.2 4	5X12	9	3.1	10#/8#	3.2 4	5X12	11.9	3.1
150	10#/8#	3.2 4	5X12	11	3.7	10#/8#	3.2 4	5X12	14.5	3.7
180	10#/8#	3.2 4	5X12	12.5	4.3	10#/8#	3.2 4	5X12	16.5	4.3
