

## Curvy Welded Fence

Curvy Welded Fence enjoys such properties as corrosion resistance, aging resistance, sunshine resistance and weather resistance. The curvy weld fence provides competitive price retaining high quality, rigidity and performance.

**Curvy Welded Fence Material:** Low carbon steel wire, stainless steel wire, etc.

**Curvy Welded Fence Characteristics:** Woven and welded, anti-corrosion, corrosion-resisting, durable, easy to withstand outdoor exposure, etc.

**Types:**

It can be divided to electro- galvanized, hot dipped galvanization, PVC painted, PVC coated, etc.

**Usage:**

Curvy Welded Fences can be used for roads, freight, yards, sport fields, airports, garden, and raising livestock, for protection and public districts, etc.

**BENEFITS**

**1. High Rigidity**

Heavy welded mesh panels with rectangular meshes and horizontal reinforcements guarantee a very high level of rigidity.

**2. Complete System**

The system consists of panels in various heights supported by several types of posts, each with a specific fixing system. All types are available with adapted accessories.

**3. Long Life Time**

The coating technology of welded panel assures an extra long life.

**4. Fast installation**

All components have been developed to provide a professional product of high quality that can be installed efficiently and rapidly.

Details:

Specifications (H x W)	800, 1,000, 1,200, 1,500, 1,600, 1,800, 2,000 x 3,000mm
Double Layers	2,400, 2,600 x 2,800 x 3,000 x 3,000mm
Corner Post	48 x 2.5
Wire Gauge	3mm, 4mm. 5mm, 5mm 4.5mm
Aperture Size	50 x 140mm, 50 x 200mm, 75 x 250mm
It is available in a range of sizes and colors.	
Specifications can be your choice.
