

## **Rib Lath**

**Materials:** Hot-dip galvanized sheet, stainless steel sheet, etc.

**Used For:** Widely used as a plaster backing on ceilings, walls and stud partitions. Rib Lath is also ideal for refurbishing damaged or aged masonry walls when a key for rendering is not certain due to disintegration or softening of the wall face.

Rib Lath is extensively used in construction of civil building, industrial building, construction under the water like banks, ponds, infrastructure engineering as well as municipal works. Rib Lath works well with other construction materials to save both cost and energy.

Model	Thickness	S w x L w	Rib Height	Rib Distance	Kg/m 2	Width of Piece
RLAG305080	0.30	16X11	8	150	085	600
RLAG355080	0.35	16X11	8	150	1.00	600
RLAG405080	0.40	16X11	8	150	1.14	600
RLAG455080	0.45	16X11	8	150	1.28	600
